Energy Transition: Cars

Fuel type of most used car

The shift to hybrids and electric cars shows progress, but there's still a long road ahead in the energy transition journey.

Evolution Electricity & Hybrid

Energy Transition: Homes

Gas, electricity, wood, and mazout saw a slight decrease, while heat pumps & solar show growth. This trend aligns with ongoing market developments in energy-efficient heating solutions, supported by available incentives

Personal Finance

% Belgians with bonds (private or government)

The TGM results reflect the growing market trend toward (government) bonds during the TGM24 field work, with their share jumping from 13% to 17% between TGM23 and TGM24.

TGM24 results show that bonds and stocks are more popular among higher social groups

The use of alcoholic hand gel continues to decline in 2024. With COVID behind us, hand hygiene habits have settled into a more relaxed routine.
